

The 1st International Conference on Arch Bridges

CONTENTS

GENERAL

- The aesthetics of load-bearing masonry arch bridges.....3
J. WALLSGROVE
- An overview of masonry arch bridges in the USA.....11
T.E. BOOTHBY and C. K. ROISE
- The assessment of masonry arch bridges.....21
P. C. DAS
- Loaded ribs or complex systems — a personal view of our ability to
model arch bridge behaviour.29
W.J. HARVEY
- The management of a new county's bridge stock — Humberside twenty years on.....37
B. TINGLE and M. HEELBECK

METAL ARCHES

- Chippingham Street footbridge/cycleway, Sheffield, UK.....49
J.L. TAYLOR
- Research studies into the effects of transient loading on the Tyne Bridge.....55
D.M. LILLEY
- Victorian iron arch bridges.....65
I. SWAILES and J.O. MARSH
- Commercial Street Bridge, Sheffield, UK.....75
M. WILSON and H. JONES
- Spanning the Grand Canyon — Navajo Bridge over the Colorado River.....87
J.A. CANNON and R.D. TURTON

REINFORCED CONCRETE ARCHES

- The evolution of Maillart's arch bridges — a prototype for the coming years.....99
E. SIVIERO and S. CASUCCI

| | |
|---|-----|
| Wisconsin Avenue Viaduct..... | 109 |
| S.P. WANIERIS, M.A. MADAY, C. REDFIELD and J. STRASKY | |
| Arch bridge at Dodan Nallah..... | 119 |
| M. TANDON | |

ANALYSIS

| | |
|---|-----|
| A modern evaluation of the historical theories about masonry or stone arches..... | 131 |
| A. SINOPOLI, M. CORRADI and F. FOCE | |
| The response of masonry parapets to accidental vehicle impact..... | 143 |
| M. GILBERT, B. HOBBS and T. MOLYNEAUX | |
| Element stiffness matrix of space curved bars..... | 155 |
| M. ARICI, N. MIRAGLIA and V. RUISI | |
| Collapse load analysis of masonry arch bridges..... | 167 |
| Y. C. LOO | |
| Structural analysis of the Bozdogan (Valens) Aqueduct in Istanbul..... | 175 |
| M. YORULMAZ and O.C. ÇELIK | |
| The application of cylindrical shell theory to masonry arch bridges..... | 181 |
| R.M. ROMAYA | |
| The analysis of skew arches using shell theory..... | 195 |
| H.W. CHANDLER and C.M. CHANDLER | |
| Effect of skew on the strength of masonry arch bridges..... | 205 |
| B.S. CHOO and N.G. GONG | |
| Thrust line solutions for masonry arches derived from finite element models..... | 215 |
| E.A.W. MAUNDER | |
| Analysis of multi-ring brick work arch bridges..... | 225 |
| M. GILBERT and C. MELBOURNE | |
| The behaviour of open spandrel masonry arch bridges..... | 239 |
| C. MELBOURNE and H. TAO | |

COMPUTER ANALYSIS

| | |
|--|-----|
| Stone arch bridge analysis by the DDA method..... | 247 |
| M.Y. MA, A.D. PAN, M. LUAN and J.M. GEBARA | |
| Computer vision for masonry vault testing..... | 257 |
| R. DRAPER, K. SOAR, N. TAYLOR and T. PRIDMORE | |
| Semi-automatic approaches for masonry arch assessment..... | 267 |

A. KUMAR

| | |
|---|-----|
| Computer modelling of the construction and load testing of a masonry arch bridge..... | 277 |
| P. MANN and M. GUNN | |

EXPERIMENTAL/LOAD TESTS

| | |
|---|-----|
| Load tests to collapse on masonry arch bridges..... | 289 |
| J. PAGE | |
| Load tests for assessment of in-service arch bridges..... | 299 |
| J. PAGE | |
| The behaviour of skewed brickwork arch bridges..... | 309 |
| C. MELBOURNE and J.A. HODGSON | |
| Behaviour of restrained 1.25m span model masonry arch bridge..... | 321 |
| M. BEGIMGIL | |
| Direct assessment and monitoring of stresses and mechanical properties in masonry arch bridges..... | 327 |
| C. ABDUNUR | |
| Installation of data acquisition equipment in Kimbolton Butts Bridge..... | 377 |
| D.J. PRENTICE and D.A. PONNIAH | |
| Assessment of masonry arch bridges by service load testing..... | 345 |
| T.E. BOOTHBY, D.DOMALIK and V. DALAL | |
| The influence of mortar properties on the system behaviour or masonry arch bridges..... | 355 |
| K. SØYLAND, B. T. TOSSON and T. E. BOOTHBY | |
| Considerations in the small-scale modelling of masonry arch bridges..... | 365 |
| M.C.R. DAVIES, T.G. HUGHES and P.R. TAUNTION | |
| Changes in the dynamic characteristics of a masonry and bridge subjected to monotonic loading to failure. | 375 |
| G. BROWN, A.J. PRETLOVE, J.C.A. ELLICK, V. HOGG and B.S. CHOO | |

FLAT ARCHES

| | |
|---|-----|
| Analysis and design of flat arch bridges..... | 387 |
| M.E. RAISS and M. F.L. HUI | |
| The load test to collapse a 5m soan brickwork flat arch barrel..... | 397 |
| C. MELBOURNE, M. BEGIMGIL and L. WEEKES | |

| | |
|--|-----|
| Flat arch action..... | 407 |
| JACKSON | |
| Snap-through buckling analysisi of shallow masonry arches..... | 417 |
| X.J. WANG and W.J. HARVEY | |
| Finite element analysis of flat arches..... | 427 |
| D.M. PENG, C.A. FAIRFIELD and A. SIBBALD | |

ASSESSMENT

| | |
|---|-----|
| Performance criteria in arch bridge assessment..... | 439 |
| D. HALDEN | |
| Load carrying capacity of masonry arch bridges..... | 449 |
| P. FACCIO,P. FORABOSCHI and E. SIVIERO | |
| Non-destructive testing for arch bridge assessment..... | 459 |
| A. BENSALAM, C.A. FAIRFIELD and A. SIBBALD | |
| Assessment of spandrel walls..... | 469 |
| D.R. THOMPSON | |
| The assessment of a multi-span masonry arch bridge..... | 479 |
| T.G. HUGHES | |
| The behaviour of multi-soan masonry arch bridges..... | 489 |
| C. MELBOURNE, M. GILBERT and M. WAGSTAFF | |

REPAIR AND MAINTENANCE

| | |
|--|-----|
| Repair and strengthening of masonry arch bridges..... | 501 |
| S.K. SUMON and N. RICKETTS | |
| The load test to collapse of a 5m span brickwork arch bridge with tied spandrel walls..... | 509 |
| C. MELBOURNE, M. BEGIMGIL and M. GILBERT | |
| Research project into the upgrading of un-reinforced masonry parapets..... | 519 |
| W.G. MIDDLETON | |
| Determination of the serviceability limit state for masonry arch bridges..... | 529 |
| B.S. CHOO and V. HOGG | |
| Remote monitoring and analysis of a multi-arch masonry bridge with wide cracks..... | 537 |
| G. FAUCHOUX | |
| Analysis of three medieval Spanish masonry bridges..... | 547 |
| P. ROCA and C. MOLINS | |
| Retro-reinforcement — a proposed repair system for masonry arch bridges..... | 557 |

S.W. GARRITY

Strengthening and repair of listed masonry arch bridges.....567

W. DAY

Relative strength of repaired arch bridges.....579

B.S. CHOO, C.N. PEASTON and N.G. GONG

Widening and restoration of large masonry viaducts (including Newton Cap Viaduct).....589

J.S. SHELLEY

Renovation of masonry bridges.....601

P.J. WELCH

Fernhill Heath Bridge.....611

P.J. WADE

NEW MASONRY/MASS CONCRETE ARCHES

Lightweight stone arch bridges in Hunan, China.....627

G. HU, L. XU, G. SHANG, S. CHENG, B. WANG and W. CHOU

The INCA system for the construction of new arch bridges.....635

R.S. ROCKE and R.J. BRIDLE

The Nucon Arch — plain precast concrete arch systems.....645

A. WAKEMAN

Prestressed masonry arches — a new approach.....653

D.J. EASTERBROOK, G. SHAW, C. SOUTHCORBE and G. GILL

Development of a precast arch system.663

H.R.J.H. SMITH

Mass concrete arches673

C. MELBOURNE and L. WEEKES

Contractor Design and Design Build Finance and Operate

the increasing use of manufactured arches.....683

D.P. MCKITTRICK and G.J. HALL
